Personal Portfolio

## SKILLS

- **Java**
- **MERN Stack**
- **Core Subjects : OOPs, DBMS, CN, OS**

## EDUCATION

- SNDT College | BSc (IT) |Information & Technology | may '26
  *CGPA***:** *7.4 | (may '24)*
- XII (HSC) | SVT College of Home Science                    *61.33%| 2023*

## ACADEMIC PROJECTS

❖ **StayEase – Rental Booking Platform**

Developed **a full-stack** rental booking application using the MERN stack, emphasizing backend logic and database operations. Integrated RESTful APIs, middleware, and user authentication.

**Technologies:** MongoDB, Express.js, React.js, Node.js

❖ **Simon Says Game (JavaScript-Based)**

Developed an interactive Front-end memory game with increasing difficulty levels. Users follow a sequence of flashing-colored boxes. selecting the wrong box ends the game.

**Technologies:** HTML, CSS, JavaScript

❖ **Quora Post Manager – Basic CRUD Page**

Designed a basic post management page with RESTful API routes for creating, reading, updating, and deleting posts. Integrated UUID for unique post identification and built a simple UI using EJS.

**Technologies:** Express.js, EJS, UUID

## ACHIEVEMENTS / HOBBIES

**Achievements:**

- Completed *Web Development Course* from Apna College
- Built and deployed 3+ full-stack web development projects using the MERN stack.
- Successfully completed *Computer Basics – A+ Certification*

**Hobbies:**

- Exploring and learning new things across different fields
- Developing interactive web apps and improving coding skills
